MAGAZINE OF GOOD SHEPHERD SCHOOL, NANDYAL

April, 2026

Dear Learners,

As we turn the final page of this edition, we do not close a chapter..... we celebrate a journey.

"Joy" magazine is more than words and pictures.

It's the reflection of our dreams, efforts and the spirit that binds us as one school family. Every page carries a story of growth, resilience and the quiet determination of our students and teachers. Let this closing not be an end, but a reminder that every ending is the beginning of a new aspiration.

May we continue to learn with curiosity, lead with integrity and serve with compassion.

Wishing you all
continued
success and bright
future ahead...

Principal

EDITORIAL

As we place the final period on this year's edition of "The Joy", I am filled with mixed

emotions of nostalgia, pride and forward looking. Grateful to all the hands that made it happen beautifully. I'm struck by the sheer volume of talent within these pages. None of this would be possible without the "silent editors" - The Parents, at home. Thank you dear parents for encouraging your children to pick up the pen or the brush. Your belief in their potential is the foundation upon which their confidence—and these articles—is built. Thank you for being our partners in nurturing these young voices.

Thanks to all our little writers for your contribution - Whether you submitted a hard-hitting essay, a delicate poem, or a stunning piece of art, you gave this magazine its soul. Your creativity is the reason these pages come to life.

Dear outgoing SSC GEMS of 2025-26!
You have led this school with grace, and your influence is woven into the very fabric of this edition. May you approach your future with the same passion and resilience you've shown us here. As you prepare to step beyond these gates, we look at you with immense pride. Go forth and make your mark on the world. Wishing you all a wonderful break and a bright future ahead.

Mrs. Ruth Esther Rani Dara
Editor, JOY Magazine.

BE YOUR OWN HERO

No cape, no crown, no shining sword, yet stronger than a loud applause. Character stands by your side, A silent, steady, faithful guide. When work is hard and mind feels low, It says, "keep trying - you will grow!" when anger rises, bold and fast, It whispers, "make your kindness last." When no one watches what you do, Be honest, brave and always true. For marks may fade and prizes go, But character makes greatness grow. Be your own hero, strong and bright Choose what's good. Choose what's right.

मेरी माँ

माँ तेरी ममता है सबसे न्यारी,
लगती हो तुम मुझे सबसे प्यारी।
प्यार तुम्हारा सागर समान,
खेह भरी तेरी हर मुस्कान।
बिन कहे तुम सब समझ जाती हो,
बिन माँग हर चीज दिलाती हो।
दूर करती मेरी सारी बीमारी,
जादू की छड़ी जैसी है दुआ तुम्हारी।
मेरे खातिर सौ सपने सजाती हो,
अरमानों को अपने त्याग देती है।
बिना तेरे व्यर्थ है जिन्दगी सारी,
तुमने ही मेरा जीवन सवारा।

Why Are Dreams Important

Dreams are very important in our life.
A dream is something we want to become or achieve in future.
When we have dreams, we get direction in life.
Dreams tell us where to go and what to do.
If a student dreams of becoming a doctor, he studies well.
If a child dreams of becoming a player, she practises every day.
Dreams make us work hard.
They give us hope and confidence.
Even when we fail dreams tell us-
Don't stop try again.
Big dreams start small with hard work,
Patience and belief,
dreams can come true.
So children dream big, work hard and never give up.

The Lion

- Lions have strong confidence and move with great knowledge to intimidate rivals.
- Lions show great co-operation to do the team work and maintain long term bonds within the pride.
- Lions have a powerful strategic thinking and show impressive skills in problem solving in hunting.
- Lions have a good territory awareness, strong mental map of their boundary and remember their limits.
- Lions possess lot of patience, they can wait motionless for long periods for successful hunting.
- Lions have aggression balanced with restraint. They are capable of intense aggression when defending but don't waste energy on unnecessary conflicts.
- Lions have great learning and memory. they learn from experience like failed hunts, rival encounters and environmental changes. Some lions stay in a forest or in a zoo but a few live with the people in the society. Some lions possess four legs with a long tail but a few possess two legs with an aim, like the one who is reading this now.

NATURE

Oh wonderful nature, you are so beautiful with greenery and fragrance. It is also beautiful with green trees, and humming of bees. You are a home for many animals, birds and you give shadow for humans too. You give tasty fruits you give medicines and sunlight. You are life for everyone. That is why we should save nature.

Values we learn from Mother

A Mother teaches us love and care from the very beginning. She shows the value of patience in every situation. From her, we learn kindness and respect for others. A Mother teaches us to be honest and truthful. She encourages us to work hard and never give up. Her sacrifices teach us selflessness. A Mother guides us to choose the right path in life. She is our first teacher and best supporter.

Watch Me Grow

Here is the egg, small and round,
on a leaf above the ground.
Here is the caterpillar, watch it eat,
Lots of Leaves, Juicy and Sweet.
Here is the cocoon, small and thin.
The changing pupa sleeps within.
Here is the butterfly fluttering away.
Happy to show off its colours
every day.

The Book

When school starts,
The fragrance of new
books spreads.
The fragrance is
memorable,
In our life, until we die.
When the wind blows,
The pages of book turns,
And they make a beautiful music,
That is so pleasant to hear.
When we touch the pages,
We feel the texture,
It is so soft and smooth.

Discipline

Discipline is one
of the first few
lessons that we
learn as children.
It means living your
life with proper rules
and systems which will help you
achieve your goals. When we
lead a disciplined life, we start
improving our habits, which
improves our personality and life.
Discipline is the factor that makes
us learn all the principles
required to be successful in life.
It is one of the most important
lessons that will be useful to
you throughout your life.
Discipline is the quality of being
able to behave and work in a
controlled way which involves
obeying particular rules or
standards.

Inspiring Young Minds Every day

"Inspiring young minds every day" reflects our commitment to nurturing curiosity, creativity and confidence in every student. We believe education is not just about learning subjects but about building character, values and leadership. Through knowledge, discipline and encouragement we guide our students to dream big and achieve greater heights. Every day is a new opportunity to learn, grow and shine cultivating a grown mindset, celebrating effort over perfection, and fostering curiosity through interactive real-world learning key strategies include nurturing emotional intelligence, encouraging collaborative problems solving and providing positive consistent, encouragement to build self-confidence.

Two Friends

Lucky and Curse were two friends. Whenever they went together, the villagers mocked at them. "Hello Lucky! Why are you roaming with Curse? His name is so negative so should be his character." Although Lucky did not mind this, Curse felt very bad. Once, when Lucky was out of station, his house caught on fire. The villagers were afraid to go near and quench the fire. It was Curse who bravely fought the fire and quenched it. On his return, Lucky heard the whole story. He took his friend Curse proudly and said to the villagers, "Look at who saved my house. It is Curse my friend. What is in the name? It is in the character that someone is good or evil. Don't ever evaluate a person by name."

MORAL: Name does not reflect character.

What should not be abandoned ... Friendship

First God ... Parents

A Good Quality ... Forgiving

A Good Day ... Is Today

What should not come into you ... Is hatred

You should have ... Patience and wisdom

A terrible disease ... Greed

Is Vile (bad) ... Jealousy

Those who bring danger ... The one who talk too much

All you have is ... To do help

We should remember ... Those who helped us

What needs to be given up ... Bad addiction

What should not be done ... Betrayal

About my teacher

Teacher is a very important part of our society. They also give us knowledge. They help us to shape our life. Teachers are role models for students. They also help in learning new skills. The teachers are like our second parents. They are also a source of inspiration and motivation. Teachers are respected in Indian society. Teachers' Day is celebrated on 5th September every year. We should always obey and respect our teachers.

S. Manisha, 6H

Our Principal's role extends beyond administrative duties; she shapes the school's culture, fosters innovation, and drives academic success. Her effective principles inspire teachers, students, and staff, creating a supportive environment where everyone thrives.

FRIENDSHIP

Friendship is one of the most beautiful relationships in life. A true friend is someone who understands you, supports you and stays by your side in both good and bad times. Friends bring happiness, share secrets and make life more enjoyable. They help us grow by giving honest advice and standing by giving honest advice and standing with us when we face difficulties. Good friends never judge and always encourage us to do our best. They listen without being asked and care without expecting anything in return. Friendship is based on trust, love, respect, and honesty. It is said, "A friend in need is a friend indeed." This means real friends are those who help us when we need them the most. We should also be kind, loyal, and helpful to our friends. Friendship makes life colorful and meaningful. Everyone should value and cherish their true friends. As they are rare and precious.

Prisoners Dilemma

Two suspects are arrested, held separately and cannot communicate. They must choose between confessing or remaining silent. If both stay silent – they get a light sentence (eg. 1y) If both confess – they get moderate sentence (eg. 5y) However if one confesses and the other stays silent, confessor – goes free silent one – gets heavy sentence (20y).

Prisoners Dilemma shows why two individuals might not cooperate even if it is in their best interest to do so. It demonstrates that individual self-interest can lead to a suboptimal outcome for both.

"Do the Hard Thing First"

"The cold water doesn't get warmer if you jump late." Here's a simple tip to become more productive and feel better: the hardest work you have for the entire day should be done first. No matter how hard it is, it needs to be done first. Whenever you start working, write all the things that need to be done, pick the hardest and most complicated task, and immediately start doing the task.

Your Mindset Determines your Future

"The people who are crazy enough to think they can change the world are the ones who do."

Your success depends on your mindset. Our mind is the most powerful asset we have. It doesn't matter how many successful people you have met or how educated you are. Your future will be created by how you think.

- * Focus builds discipline.
- * Discipline creates habits.
- * Habits drive consistency.
- * Consistency unlocks success.

- A VISIT TO VIMALA MANOVIKAS
CENTRE**

My Experience - Feelings of a special visit

We, the 9th class Boy Green Ambassadors, visited Usha Manovikas on 13.03.26. At first, I felt scared when I saw the specially abled people there. However, after some time, I began to feel sad thinking about their condition. At the same time, seeing their happiness taught me an important lesson—that no matter what happens in life, we should be happy with what we have. I am thankful to God for giving me everything I need. From that day on, I stopped making jokes about others' physical appearance and body shaming. I also made a promise to myself that I will donate something to the needy on my birthday.

MEDHANUSU REDDY, 9K,

Power of tongue

The power of tongue refers to immense influence of words on individuals, society and relationships. Words can inspire, heal, destroy and hurt.

On one hand, positive words can motivate, encourage and uplift others. They can build confidence, foster creativity and strengthen bonds.

On the other hand, negative words can cause harm, perpetuate stereotypes and damage relationships. Careless words lead to misunderstandings, conflicts and emotional distress.

- "The tongue has no bones, but it can break the bones."
- "A kind word can change someone's entire day."

Why God Made Teachers

When God created teachers,
He gave us special friends,
To help us understand his world
And truly comprehend
The beauty and the wonder
of everything we see.
And become a better person
With each discovery.

When god created teachers.
He gave us special guides
To show us ways in which to grow
So we can all decide
What's right instead of wrong
To lead us so that we can lead
And learn how to be strong.

**SHAIK

Why God created teachers,
In his wisdom and his grace,
Was to help us learn to make our world
A better, wiser place.

When shadows fall and feel thin,
Believe the light that lives within.
Each small step, though rough and slow,
Leads you where you're meant to go.
Hold your faith, be strong, stand tall
Never give up, rise after every fall.

Never give up

K.J.Srujitha. 7A

Never up means staying strong even when things are hard.
Life may bring problems and failures, but they help us learn and grow. If we keep trying with patience and confidence, success will be ours one day. Hard work and determination always win in the end.
"Never give up, because great things take time."

My journey in GSEMS

Tenth class is not just an academic year, it is a turning point in a student's life. The final bell rings signing off my journey in GSEMS. For me 10th class is a mixture of memories, emotions, challenges and growth. The classrooms that once felt new and unfamiliar slowly became spaces filled with laughter, friendships and unforgettable moments. Every corridor holds a memory, every bench has witnessed our secrets, & every black board has seen our dreams slowly taking shape. The word "BOARD EXAMS" carries both fear and determination. Expectations are higher, syllabus is larger and pressure sometimes feels overwhelming. My teachers who guided me all these years are not just teachers, they are mentors who have patiently corrected my mistakes and encouraged me. Their words of motivation during difficult times gave me confidence when I doubted myself. My friends have been my biggest support system from group, studies and last-minute revisions to sharing worries and laughter. They made this journey lighter and more beautiful. There were days of happiness when I felt proud of my achievements and sadness when things didn't go as planned. I would especially like to express my gratitude to our respected Principal Mrs. Jessy Paul madam. Her words during assembly often give me strength and remind that I am capable of everything. Under her guidance, school has grown not only in academics but also in values and discipline. This school is not just a building of walls and classrooms. It is a place where I learnt values, discipline and discovered my strength. Grateful for all the countless memories.

SEVEN SIMPLE TIPS TO BEAT EXAM STRESS

1. Manage time wisely :

If you insist that you give yourself plenty of time to work on your studies if you want to do well, and you can save yourself a lot of stress if you plan ahead. Set up a study schedule and break up your studies into smaller bits.

2. Don't just worry, take action :

If you don't understand some of your material, getting stressed out won't help. Instead, take action by seeing your teacher to help you to understand the problem.

3. Take a break :

As soon as you notice you are losing concentration; take a shot break. Go for a walk, or just listen to some music. Then you will feel refreshed and able to concentrate on your revision again.

4. Food matters :

Eating healthy makes all the difference. Food rich in vitamins and proteins, such as green leafy vegetables and fresh fruits, are a must. The nutrients will help your brain stay sharp.

5. Blankety blank ? :

If your mind goes blank, don't panic. It just makes it harder to recall information. Instead, focus on slow, deep breathing for about one minute. If you still can't remember the information then move on to another question and return to their question later.

6. Play is as important as work :

Make sure that you build in time to have fun and relaxation in between study session. Run around the park and be part of some fun and frolic. This definitely help you stay smart and focused.

7. And finally, stay calm and happy !

Lastly, be confident that you succeed with flying colors ! All the best.

God

The creator of this whole universe. The owner of everything. The Provider, The protector, The Helper. First of all. We need to thank him for everything. We should keep complete trust in God. We should never lose hope on God. If he had delayed our wishes it would be for a reason. He knows what is the best for us, God's timing is perfect. Everything comes to you at the right time. We need to be patient. Remember God will never ignore our requests, wishes. Every single wish is heard by him and he is preparing a great plan to give you the best. God says. "Take one step towards me, I will take 10 steps towards you." Nothing is stronger than the "LOVE OF GOD."

The Hidden science of Everyday Miracles

1. Sleep makes you smarter : During sleep, the brain stores memories and clears wastes. Good sleep improves learning, focus and creativity.
2. The Human heart beats about 100,00 times a day : Without rests, without complaints – proof of incredible inner strength.
3. Kindness boosts health : Act of kindness releases oxytocin, which reduces stress and improves heart health.
4. Deep breathing calms the nervous system : Slow breathing lowers stress and improves focus.
5. Curiosity improves memory : Being curious helps the brain remember information better.
6. Practice physically changes the brain : Repetition strengthens brain pathways. Practice truly makes progress.
7. Your brain keeps growing when you learn new things : Learning creates new neural connections.
8. Water affects brain performance : Even mild dehydration can reduce concentration.

My Little dream

I am a small child with big dreams. I have many beautiful dreams in my heart. I want to become a good person in my life. Some children want to become doctors, some want to become teachers, police officers or pilots. I also have a dream. I want to study well and make my parents and teachers proud.

Dreams give us happiness and hope, we must work hard to achieve our dreams. If we believe in ourselves our dreams will come true one day.

Let me live.
Let me bloom.
Let me shine like a beautiful moon.
Let me come
And see this world.
Let me fly like a beautiful
bird.
Don't be so cruel or selfish.
Let me swim like a fish.
Listen to my cries.
Listen to my screams.
Let me fulfill my wishes and dreams.
Let me see this beautiful earth.
Please don't kill me before my birth.

Nature

Nature is a gift from god.
It gives us trees and plants.
We get food from nature.
Animals and Birds live in nature.
Rivers and mountains are nature's part.
Nature gives us fresh air.
It makes the earth beautiful.
We must keep nature clean.
Cutting trees harm
nature badly.
Save nature to save life.

కృత్య - ముత్యం

అనగనగా అడవిలో ఓ కప్ప హాయిగా జీవిస్తుంది. ఒక హంస దానికి పరిచయమైంది. కొద్ది రోజుల్లోనే అవి ప్రాణ మిత్రులయ్యాయి. ఓ రోజు కప్ప కొలనులో తామరాకు పైన తేలుతూ, హంస ఒడ్డున నిలబడి మాట్లాడుకున్నాయి. ఈలోగా ఎబ్బించి వచ్చాడో ఓ వేటగాడు హంస మీదకు హఠాత్తుగా వల విసిరాడు. వలకు చిక్కిన హంస విలవిల్లాడింది. అది చూసి కప్పకు ఏం చేయాలో తోచలేదు. వేటగాడా ... దయచేసి తనను విడిచిపెట్టు అని ప్రార్థించడం. దీన్ని అమ్మితే బోలెడు డబ్బొస్తుంది, విడిచిపెట్టను అని అన్నాడు. నీకు డబ్బు కావాలి అంటే కదా! ఉండు అని కప్ప వెంటనే నీట మునిగి కొంతసేపాగే ముత్యంతో పైకొచ్చింది. ఆ ముత్యాన్ని తీసుకొని వేటగాడు హంసను వదిలిపెట్టాడు. ఇంటికెళ్ళాక అతను చెప్పినదంతా విన్న భార్య... ఆ కప్ప దగ్గర ఇంకొన్ని ముత్యాలు ఉండి ఉంటాయి. వెళ్ళి అవన్నీ తెచ్చేయ్ అని చెప్పింది. దాంతో దురాశ కలిగిన వేటగాడు కప్ప దగ్గరకి వెళ్ళి ఏయ్...మర్యాదగా నీ కొలనులో ఉన్న ముత్యాల్ని నాకిచ్చేయ్. లేకపోతే హంసను తీసుకుపోతా అని బెదిరించాడు. అది విన్న కప్ప ...అరే ఒక్కసారి నీ చేతిలో ఉన్న ముత్యం ఇస్తావా ... అది చూసి అచ్చం అలాంటివే తీసుకొస్తాను అని అడిగింది. దాంతో వేటగాడు కప్పకు ముత్యం ఇచ్చాడు. కప్ప దాన్ని తీసుకుని పారిపోయింది. పోతూ పోతూ నా స్నేహితురాలు ఎప్పుడో దాక్కుంది. నీకు మేం దొరకం. అత్యాశతో ఉన్నది కూడా పోగొట్టుకున్నావ్ అనుభవించు ! అని అరిచింది. అది విన్న వేటగాడు అయ్యో! ఎంత పని చేశానూ అని బాధపడ్డాడు.

बगिया मेरी मुस्कई

घर की प्यारी बगिया में
मैंने पौधा एक लगाया ।
छोटे-छोटे हाथों से जल,
देकर उसको हरा बनाया
पत्ते लाल, हरे से फूटे
कलियाँ उस पर खिल आई
फूल-फूल से खुशबू निकली,
सारी बगिया महकाई ।
छिटके बीज यहाँ-वहाँ फिर
मेहनत मेरी रंग लाई ।
बरखा रानी के आते ही ।
बगिया मेरी मुस्कई ।

छोटी-सी प्यारी पाठशाला,
ज्ञान से जगमग हर डाला ।
अक्षर-अक्षर दीप जलाए,
सपनों को आकार दिलाए ।
किताबों की खुशबू न्यारी,
हर पन्ना दुनिया से प्यारा ।
चित्र, कहानी, गिनती, खेल,
सीखें हम मिल बॉट के मेल ।
गुरु का स्नेह, सीख निराली,
मुस्कानें बच्चों की मतवाली ।
जीवन का पहला उजियाला,
मेरी अपनी पाठशाला ।

True Friend

A true friend is the one
who is with us always.
who bears all our mistakes and mischieves.
who shares our happiness and sorrow.
who corrects our mistakes.
who guides us in a right path.

I have found a true friend with God. He is the one who always cares for me and guides me. I've developed a strong friendship with God that I've filled him in my heart. Even you experience it once. You'll never have it in your life. When I turn to the hardest pages of my life, I could see only one person who was with me always – GOD. He shared all my sufferings. Though I left him, he didn't leave my hand. he said "I'm always with you and I'll always be there for you." He accepted me, forgave all my mistakes. He knows every secret of my life and teaches me every secret to win in life. It was for me he sacrificed himself. His love is inexplicable. The only thing I could do for him is showing him to the world with my word, thought and deed.

Magical number 9

When we multiply 9 by any natural number, the sum of all digits in the product is always 9.

$$9 \times 2 = 18$$

$$\text{Sum of digits} = 1 + 8 = 9$$

$$9 \times 5 = 45$$

$$\text{Sum of digits} = 4 + 5 = 9$$

Let's try this now.

$$\text{Half of } 9 = 4.5$$

$$\text{Sum of the digits} = 4 + 5 = 9$$

$$\text{Half of } 4.5 = 2.25$$

$$\text{Sum of digits} = 2 + 2 + 5 = 9$$

Add up the digits to a single digit if sum has more than one digit.

Always we get "9".

It's just magic. Isn't it?

THE POWER OF YOUR WORDS

Words though made of small letters are very powerful. These words when put together can cheer up a person or destroy a person's mood. These words have the power to lift, cheer, relax or calm a person but they can also destroy, demolish, humiliate, embarrass and sadden a person. These words which come out of our mouths don't just go through others ears but also through their hearts. When these words go through their hearts, they will no longer be small words but big swords that pierce their heart. "Sorry" is also a word, but it can only repair your relationship with others. It cannot heal the scars caused by the words. These words that come out of our mouths will soon become their insecurities. Once these words go through hearts, they will never be forgotten. These words will always ring in their minds, and will eventually change their personality completely. The power of these words is so great, that sometimes these words eat away their heart and mind. These words can even destroy the most beautiful friendships on this earth within a few seconds. The most cherished relationships, years and years of memories can be stained with a few words. The power of these words is so great, that it completely removes the joy and happiness from the soul of a person. So, always remember to think from the other's point of view before speaking. What may seem as little comments to us will become their biggest insecurities.

TASTE YOUR WORDS BEFORE YOU SERVE THEM.

Forewell to Pillars of Greatness

As sun sets on my final year in school, I stand at the threshold of a new chapter, my heart heavy with a bitter sweet ache. It is the good bye to the teachers whose greatness shaped us in ways words can scarcely capture. In this last year, they were everything – strict disciplinarians, fierce protectors, endless wells of care and beacon of wisdom. Their anger was never wrath but a fire forged from love, their punishments not cruelty but chisels carving better versions of us. They punished us not to break us but to build resilience, teaching that shortcuts lead to dead ends.

V. Lasya, 10I

I remember the weight of their disappointment mirroring my own image pushing me to rise. When exhaustion blurred our vision during late revisions, they'd slip in words of encouragement, share inspiring stories or simply listen without judgement. They mended fractured confidences, celebrated small victories and wiped away tears with lessons in empathy. They juggled hundreds of us yet made each of us feel seen, their selflessness a quiet heroism. Their nurturing healed every scar, reminding us we were never alone. They didn't just teach subjects : they instilled values- perseverance through scoldings, kindness through example, resilience through every trait. They balanced rod of discipline with balm of encouragement turning chaotic class rooms into gardens of growth. As I walk these corridors one last time, tears flow for the anger that toughened me, the care that healed me.

To every teacher : Your multifaceted greatness defined our last year. you've given us discipline, heart and wings. Though our schooling ends, your legacy propels us forward – forever grateful.

Foot prints in the Sand

One night I dreamed I was walking along the beach with God. Many scenes from my life flashed across the sky. In each scene I noticed footprints in the sand. Sometimes there were two sets of footprints. Other times there were one set of footprints. This bothered me because I noticed that during low periods of my life, when I was suffering from anguish, sorrow or defeat, I could see only one set of footprints. So I said to God, "You promised me that if I followed you, you would walk with me always. But I have noticed that during the most trying periods of my life, there have only been one set of footprints in sand. Why, when I needed you the most, you have not been there for me ?

" Then God replied, " The times when you have seen only one set of footprints, is when I carried you."

GOD WILL ALWAYS BE WITH US

S. Abhigna, 10G

Friendship

I used to think that friends were the people that you could laugh and talk to. Now I know that friends aren't that, they're the people that touch your heart. They're the people you can share your secrets with, cry with, laugh with and just have fun. They don't judge you or make you change. They accept you exactly who you are. Everybody isn't your friend. Just because they hang around you and laugh with you doesn't mean they're for you. Just because they don't stab you in it. People pretend well but Jealousy sometimes doesn't live far. So know your circle. At the end of the day, real situation exposes fake people, so pay attention. A true friend accepts who you are. But also helps you to become who you should be. Friendship is not about who acts true to your face. It's about people who remain true behind your back. Remember, life is not about the quantity of friends you have but the quality of friends you have. A friend who understands your tears is much more valuable than a lot of friends who only know your smile.

Lessons Beyond Textbooks

My school never taught me lessons that stayed only inside textbooks – it taught me competence, character and the courage to contribute. The discipline that once felt strict slowly shaped my confidence, focus and strength. I learned responsibility, respect and resilience through every rule that my school taught me. Today I realize those lessons were never tough – they were gifts preparing me for life beyond the classroom. What I carry forward is not just knowledge, but the great values taught by my school. The Last Bell of my school life would be very emotional for me. Though I have heard the same sound for many years, but this time it feels different because I knew I would not hear it again. It could be a very emotional reminder to me about my classrooms, teachers, friends, and all the memories I made here. The last bell is not just a sound – it is the end of beautiful journey and the beginning of a new one. With emotion and gratitude

The actual failure

Actual failure is not just losing or making a mistake. It becomes meaningful only when it leads us towards success. I heard a saying "Failure is the first step to success." However, I do not completely agree with this. "Failure becomes the first step only when we learn something from it. Without learning, it is just mistake being repeated again and again. We blame situations, make excuses and comfort ourselves by saying it is the first step to success. But do we really work on it or try to improve? To turn failure to an actual failure, follow the 3A's: 1). Accept what happened. 2). Analyse mistake we made. 3). Act to improve in the next opportunity. These three A's can help us grow, reach heights, truly experience taste of unforgettable success without any shortcuts.

SCHOOL LIFE THE BEST LIFE EVER

School life is full of fun, friendship and a little bit of homework too! From running to class before the bell rings to sharing lunch with friends, every moment becomes a sweet memory. Sometimes we laugh we get scolded but everyday something new. Our classrooms are full of stories, teachers may seem strict but they always want the best for us. Exams may be scary but they also make us stronger and smarter. One day we will look back and miss these days. So, let us enjoy our school life and respect our teachers. And our school timetable looks simple, but every period has its own drama. The first and second periods are always the sleepy periods, of course last period is our favourite no matter what the subject is but enjoy the learning and Always Believe in you!

My Experiences as a Student

I walk through halls of whispered dreams, with heavy books and hopeful schemes. Each morning brings a brand new test, of mind and will and doing my best. From chalk-dust air to glowing screens, where lessons live in in-betweens, I chase the answers, small and bright, through sleepy dawns and study nights. There are moments - pressure feels so tight, like stars that fade without their light, deadlines knock and doubts appear, softly feeding on my fear.

The Beautiful Days of our Life

If someone asks us what we will miss the most about 10th grade. We will miss the beautiful chaos that made our school life unforgettable. We will miss walking into class like serious students and turning into comedians within a span of seconds. We will miss the silent conversations that somehow happened without even moving our lips, and the way one looks at a friend could start unstoppable laughter. We will miss sharing lunch boxes as if they were national treasures. Rushing back to P.E.T. teachers to take our class to the ground in the event of any teacher being on leave. Waiting for our friends near the wash basin, if P.E.T. teacher asks "Sir, I came to fill the water bottle" such a meaningful lie. Silly fights requesting teachers for a new benchmate every week. Gossips during breaks are unforgettable. The corridors that once echoed with our chatter and laughter will now hear new voices. Our classroom seats will be occupied by juniors. But none will ever recreate our stories, our chaos, our memories. This is not a good bye. This is a thank you – for the laughter, the support, the memories and the forever bonds. Miss you my G.S.E.M.S.
